

Flight To The Future

ILICA has chosen to dedicate this year's **CE - Cultural Event** - to young professionals working both in Italy and the USA.

The theme of **Flight to the Future**, represented by the figure of Mercury, the Roman god of communication and languages, is meant to stimulate interest in our new generation of business people, attorneys, and educators.

ILICA believes that knowledge of the Italian language and culture will facilitate greater understanding among all people and will help to further stronger educational, cultural, and economic ties in today's multicultural world.

ILICA Special Award Recognition

Alessandra Cuffaro

Leonardo Kosarew
